»» Made in Germany ««

With our modularized Wie-Spray products, we plan your individual water playground in all sizes and shapes, or we install the elements individually in your children's area. Let the next few pages inspire you. Our employees will be happy to advise you, and together with our experienced designers and project managers, we will help you with the implementation.

With the interactive Wie-Spray products made of stainless-steel, we offer attractive experiences for young and old. The quality will convince you as the operator. Whether natural or colorful, we manufacture everything according to your wishes. In contrast to our water play towers, Wie-Spray products on the water playground are installed on one level. A soft floor or a children's pool provides the underground. Walking through water-spraying arches, standing under a flower shower, or activating a floor bubbler with a foot switch - everything is possible here.

Spray Pillar

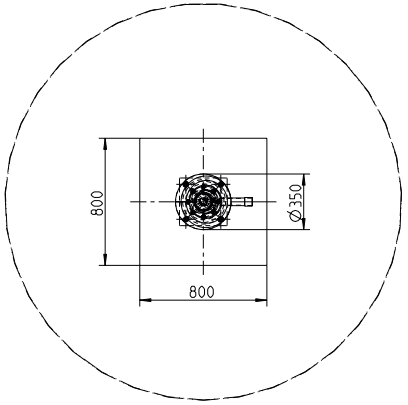

wiegand.waterrides GmbH

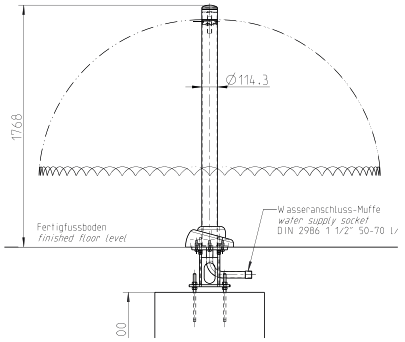

Like an umbrella, the gush of water emerges from the upper end of the spray column and invites the playing kids to stand under it or to run through and let themselves be sprinkled.

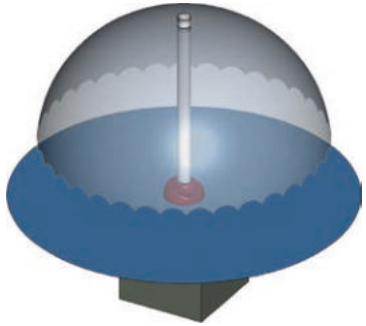

SIZE
Length: 0,35 m
Width: 0,35 m
Height: 1,77 m
Spray Area: Ø 2,5 – 3,0 m
STRUCTURE
Standing pillar of stainless-steel pipe with spray nozzle
Spray Angle: 90° - 360°
Water Requirements: 50 - 70 l / min.

SPRAY PILLAR / VIEW A

SPRAY PILLAR / VIEW B

Double Cannon

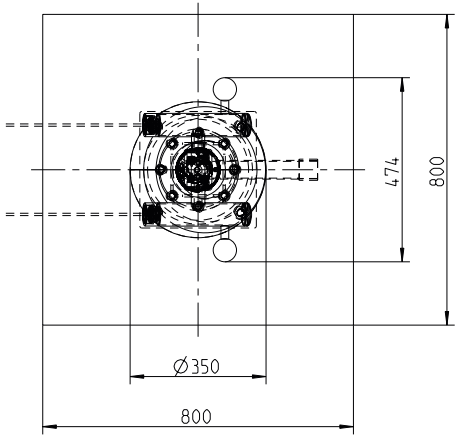

wiegand.waterrides GmbH

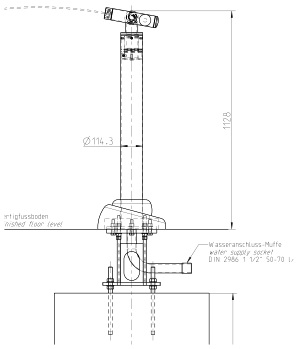

The interactive double cannon brings movement and fun to your spray park. Whether on its own or in combination with several cannons, this product is very popular in every spray park.

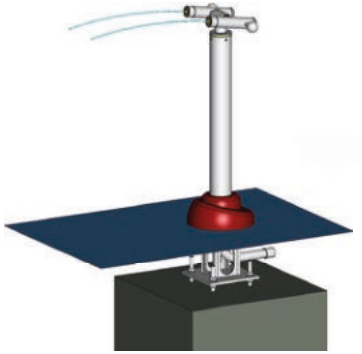

SIZE
Length: 0,48 m
Width: 0,35 m
Height: 1,13 m
Spray Area: 60° ca. 4m
STRUCTURE
Stainless-steel pipe with double pipe structure, rotatable and tiltable, including a delimitation system for the spray area
Water Requirements: 50 - 70 l / min.

DOUBLE CANNON / VIEW A

DOUBLE CANNON / VIEW B

Single Tipping Bucket

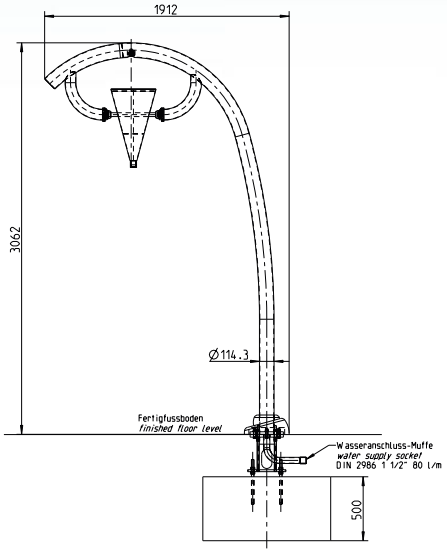

wiegand.waterrides GmbH

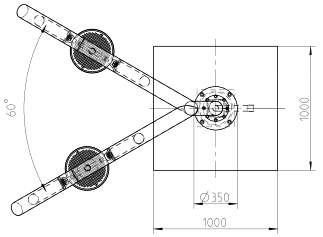

The Tipping Bucket ensures excitement in your water play area. The water collects in the buckets until the tilting effect occurs and the amount of water pours in a gush onto the ones below.

SIZE SINGLE
Length: 1,92 m
Width: 0,35 m
Height: 3,07 m
Spray Area: ca. 1,00 x 1,00 m
STRUCTURE
Bent tube with funnel-shaped tipping bucket
Water Requirements: 80 l/min
Water Requirements: 4,8 m³/h

SINGLE TIPPING BUCKET / VIEW A

SINGLE TIPPING BUCKET / VIEW B

Double Tipping Bucket

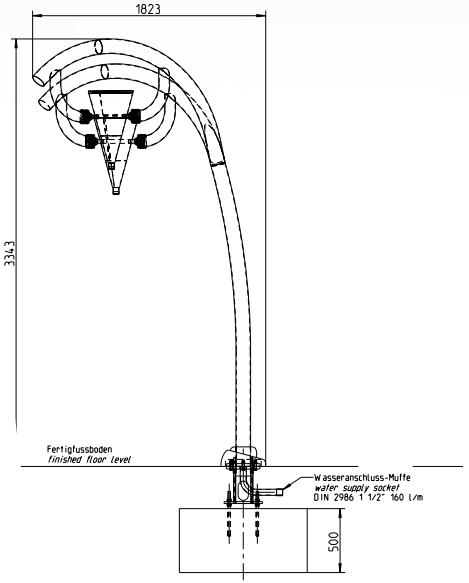

wiegand.waterrides GmbH

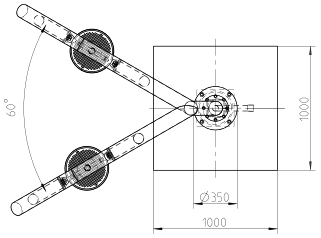

The Double Tipping Bucket ensures excitement in your water play area. The water collects in the buckets until the tilting effect occurs and the amount of water pours in a gush onto the ones below.

SIZE DOUBLE
Length: 1,71 m
Width: 1,83 m
Height: 3,35 m
Spray Area: ca. 2,00 x 2,00
STRUCTURE
Bent stainless-steel tube including hanging antlers with two funnel-shaped buckets
Water Requirements: 160 l/min
Water Requirements: 9,6 m³/h

DOUBLE TIPPING BUCKET / VIEW A

DOUBLE TIPPING BUCKET / VIEW B

Water Arch

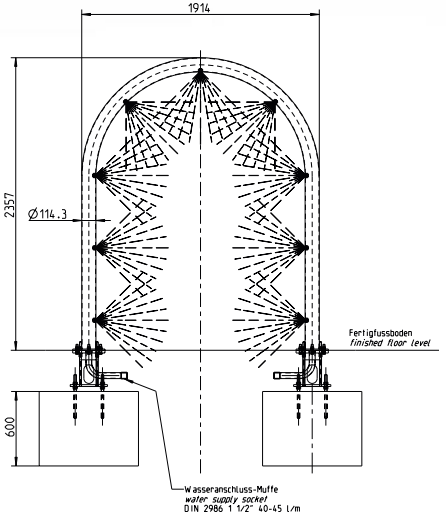

wiegand.waterrides GmbH

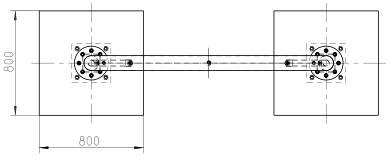

The water arch is like an archway and can be realized as a single item or in several successive arches as a tunnel. The 9 water nozzles, which are distributed over the whole arch, spray a fine drizzle that invites the players to run through underneath and let themselves be sprinkled. The water arch offers a great fun attraction on a small area.

SIZE
Length: 1,92 m
Width: 0,12 m
Height: 2,36 m
Spray Area: ca. 1,00 x 2,80 m
STRUCTURE
Stainless-steel bow with 9 flat jet nozzles (90° each)
Water Requirements: 40-45 l / m

WATER ARCH / VIEW A

WATER ARCH / VIEW B

Rainbow 4-Parts

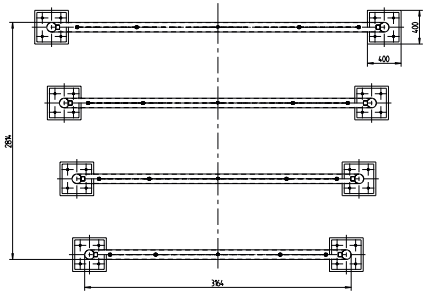

wiegand.waterrides GmbH

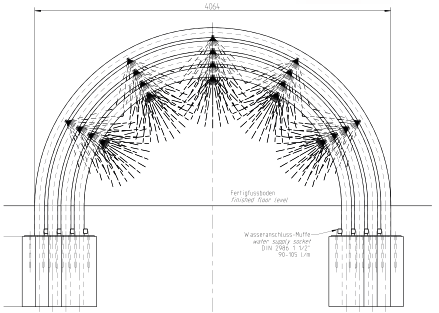

The colorful Rainbow, which consists of 4 individual arcs, distributes a fine drizzle that gently tingles the skin. Set up in an existing pool, over a mini lazy river or simply on the non-slip surface, the rainbow brings variety and fun. In addition, the colorful arches offer a visual highlight in your pool.

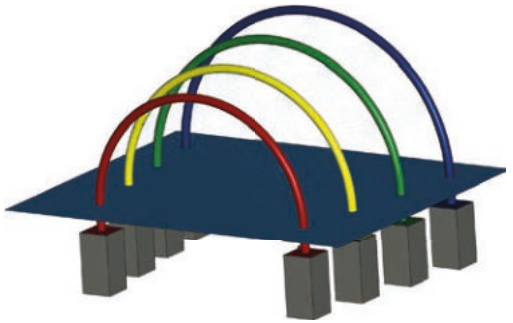

SIZE
Length: 2,82 m
Width: 4,07 m
Height: 2,36 m
Spray Area: ca. 5,00 x 3,90 m
STRUCTURE
4 different colored stainless-steel arches in different sizes 5 flat jet nozzles each ring (90 °)
Water Requirements: 90 – 105 l / min.

RAINBOW 4-PARTS / VIEW A

RAINBOW 4-PARTS / VIEW B

Water Wheel

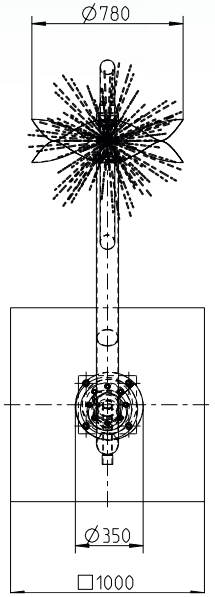

wiegand.waterrides GmbH

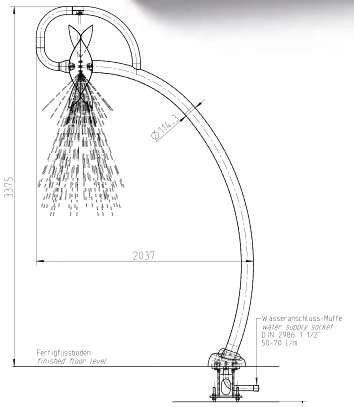

The flower, rotating like a water wheel, distributes the water like a gush and invites you to take a refreshing shower. With an individual, colorful design, this product offers the possibility of integrating a visual highlight in your spray park or in the bathing area.

SIZE
Length: 2,04 m
Width: 0,78 m
Height: 3,38 m
Spray Area: ca. 3,00 x 1,00 m
STRUCTURE
Stainless-steel tube with hand-molded polycarbonate water wheel
Water Requirements: 50 – 70 l / min.

WATER WHEEL - FLOWER / VIEW A

WATER WHEEL - FLOWER / VIEW B

Spray Ring

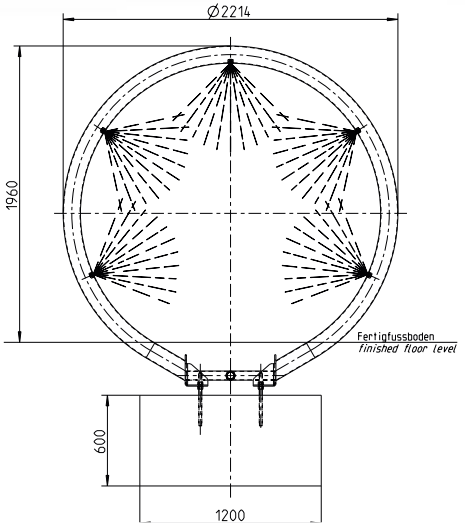

wiegand.waterrides GmbH

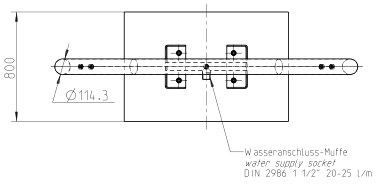

The spray ring, which is over 2 m high, can be installed on its own or in several consecutive arcs. The water nozzles, which are distributed over the entire arch, spray a fine drizzle that invites the players to walk through underneath and let themselves be sprinkled. The spray ring offers a great and large spa attraction but takes only small area.

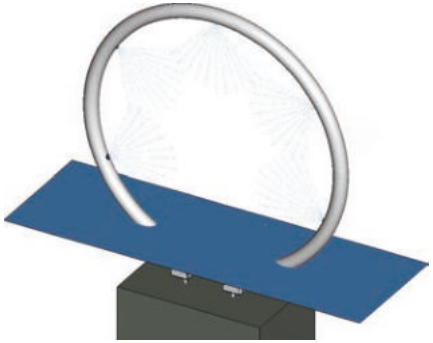

SIZE
Length: 2,22 m
Width: 0,12 m
Height: 1,96 m
Spray Area: ca. 3,30 x 1,00 m
STRUCTURE
Stainless-steel ring with 5 flat jet nozzles (90 ° each)
Water Requirements: 20 - 25 l / min.

SPRAY RING / VIEW A

SPRAY RING / VIEW B

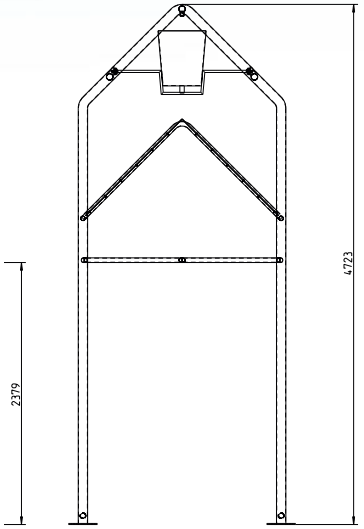

Beach House

wiegand.waterrides GmbH

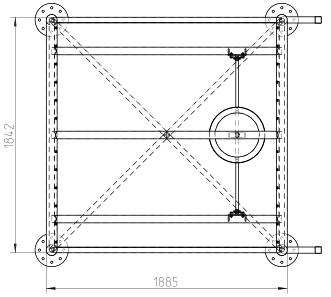

The bucket attached to the ridge of the booth tips the water in a gush onto the roof, from where it spreads to the sides over the gutters and pours onto the ground. Exciting and trilling excitement with water for the little ones who are waiting eagerly to see when the next gush will pour over the house.

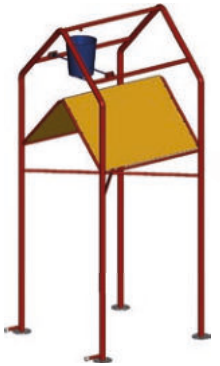

SIZE
Length: 1,89 m
Width: 1,85 m
Height: 4,73 m
Spray Area: ca. 6,00 x 2,00 m
STRUCTURE
Stainless-steel tube construction
Roof made of perforated stainless-steel sheet
Water Requirements: 40 – 50 l / min.

BEACH HOUSE / VIEW A

BEACH HOUSE / VIEW B

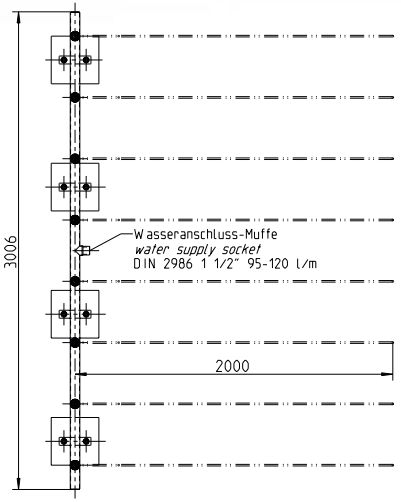

4er/8er Water Jet Tunnel

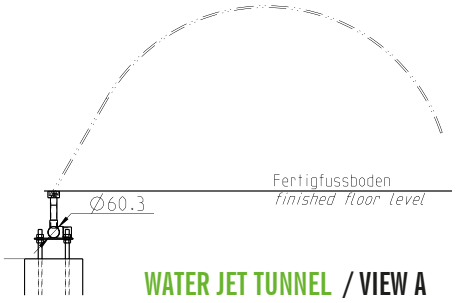

wiegand.waterrides GmbH

As if out of nowhere and without a necessary structure, the four or eight jets of water come out of the ground and fall back to the bottom in a high arc, so that they form a tunnel. Dive in at the bottom or catch the rays on the other side, this water feature offers plenty of opportunities to have fun.

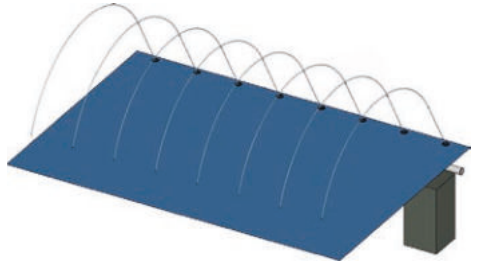

SIZE
Length: 1,50 m / 3,00 m
Width: 0,06 m
Height: 0,00 m
Spray Area: ca. 6,00 x 2,00 m / 3,00 x 2,00 m
STRUCTURE
4 or 8 adjustable ball nozzles allocated on a straight installation tube, laid flush with the floor
Water Requirements: 40 - 50 l / min. / 95 - 120 l / min.

WATER JET TUNNEL / VIEW A

WATER JET TUNNEL / VIEW B

Water Snail

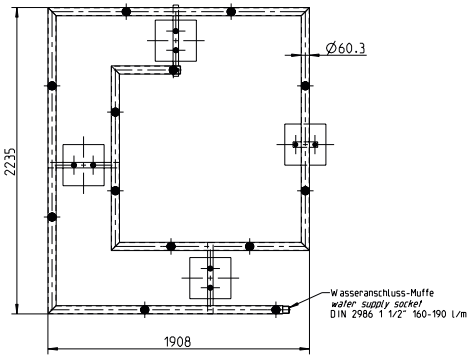

wiegand.waterrides GmbH

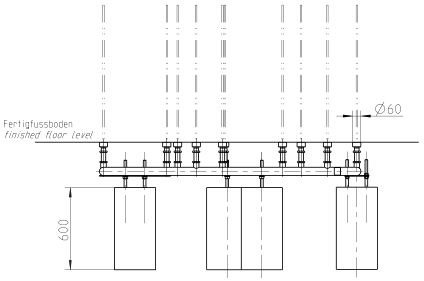

As if out of nowhere and without a necessary structure, the squarely arranged water jets come out of the ground and shoot straight up into the height before the water rains down again. Walk through in between or walk directly over it, this water feature offers numerous opportunities to have fun.

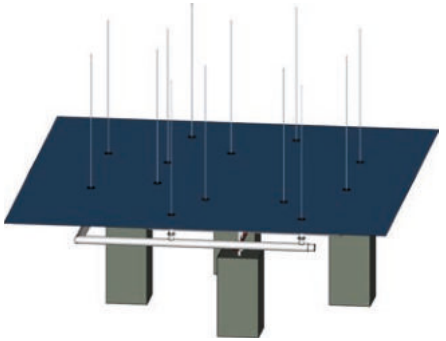

SIZE
Length: 1,91 m
Width: 2,22 m
Height: 0,00 m
Spray Area: ca. 3,00 x 3,00 m
STRUCTURE
13 adjustable ball nozzles allocated on a helical installation tube, laid flush with the floor
Water Requirements: 160 - 190 l / min.

WATER SNAIL / VIEW A

WATER SNAIL / VIEW B

Water Ring

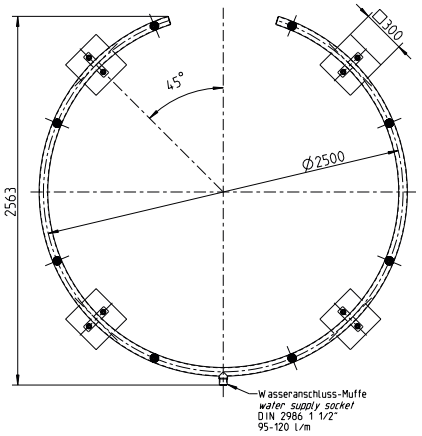

wiegand.waterrides GmbH

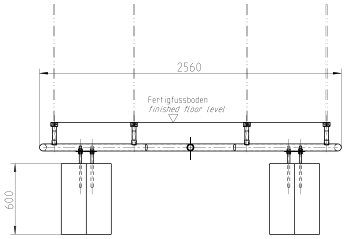

As if out of nowhere and without a necessary structure, the squarely arranged water jets come out of the ground and shoot straight up into the height before the water rains down again. Walk through in between or walk directly over it, this water feature offers numerous opportunities to have fun.

SIZE
Length: 2,56 m
Width: 2,56 m
Height: 0,00 m
Spray Area: Ø 3,50 m
STRUCTURE
8 adjustable ball nozzles allocated on a circle installation tube, laid flush with the floor
Water Requirements: 95 - 120 l / min.

WATER RING / VIEW A

WATER RING / VIEW B

Water Snake

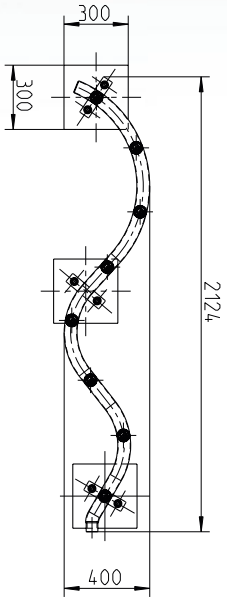

wiegand.waterrides GmbH

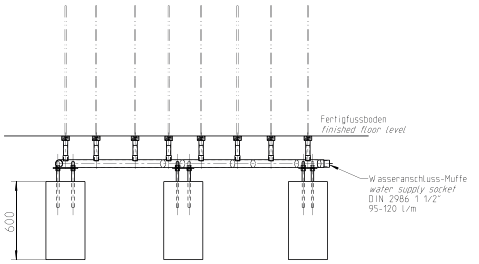

As if out of nowhere and without a necessary structure, the squarely arranged water jets come out of the ground and shoot straight up into the height before the water rains down again. Walk through in between or walk directly over it, this water feature offers numerous opportunities to have fun.

SIZE
Length: 2,13 m
Width: 0,40 m
Height: 0,00 m
Spray Area: 2,80 m x 1,00 m
STRUCTURE
8 adjustable ball nozzles allocated on a snake-shaped installation tube, laid flush with the floor
Water Requirements: 95 - 120 l / min.

WATER SNAKE / VIEW A

WATER SNAKE / VIEW B

Ground Dragon

wiegand.waterrides GmbH

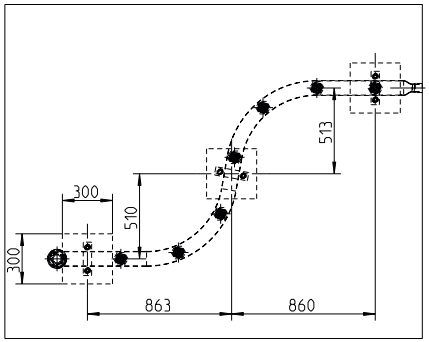

As if out of nowhere and without a necessary structure, the water jets arranged in a curve come out of the ground and shoot straight up into the height before the water rains down again. At the upper end there is a fan nozzle that distributes water jets in all directions. If you keep one of the water nozzles closed or step on it, the pressure of the fan nozzle changes, and the spray pattern is changed. Running through the jets of water in slalom or stepping on them, this water feature offers numerous opportunities to have fun.

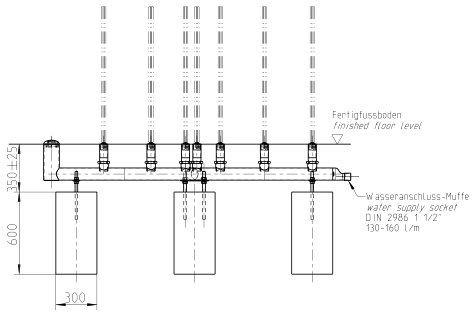

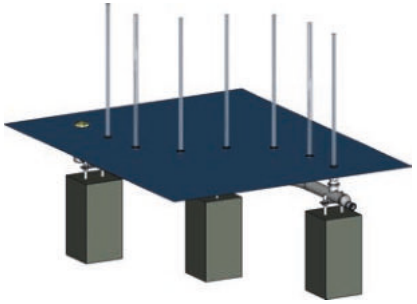

SIZE
Length: 2,50 m
Width: 0,71 m
Height: 0,30 m
Spray Area: 3,50 m x 1,50 m
STRUCTURE
1 bubble jet and 7 shut-off nozzles arranged on a curved installation tube, laid flush with the floor
Water Requirements: 130 - 160 l / min.

GROUND DRAGON / VIEW A

GROUND DRAGON / VIEW B

Launching Ramp

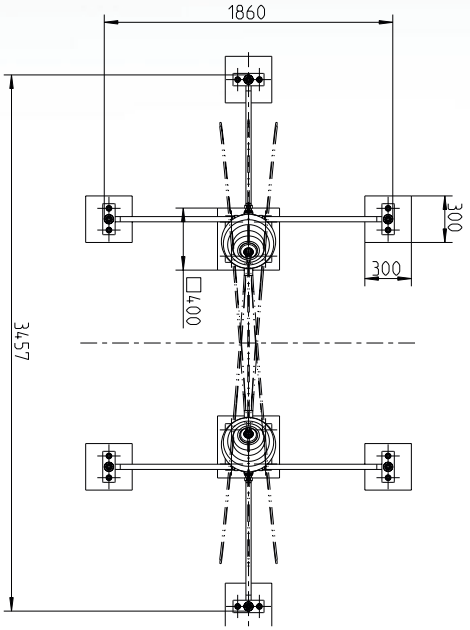

wiegand.waterrides GmbH

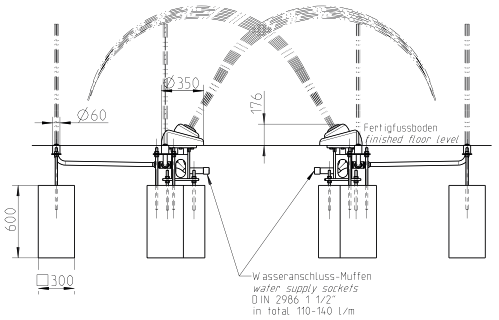

As if out of nowhere and without the necessary construction, six water jets come out of the ground and shoot straight into the height, with 2 water fountains in between. If you keep one of the water nozzles closed or step on it, the pressure of the water fountain changes. This makes for a lot of fun and allows free play in the group.

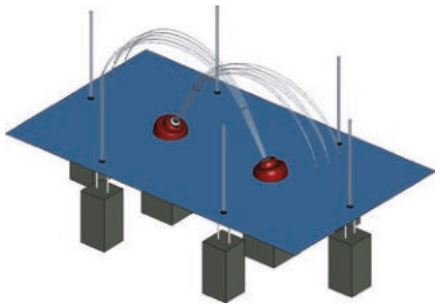

SIZE
Length: 3,46 m
Width: 1,86 m
Height: 0,18 m
Spray Area: 5,90 m x 4,30 m
STRUCTURE
2 inclined stainless-steel pipes with 7-nozzle and covers and 6 shut-off nozzles laid flush with the floor
Water Requirements: 110 - 140 l / min.

LAUNCHING RAMP / VIEW A

LAUNCHING RAMP / VIEW B

Fountain

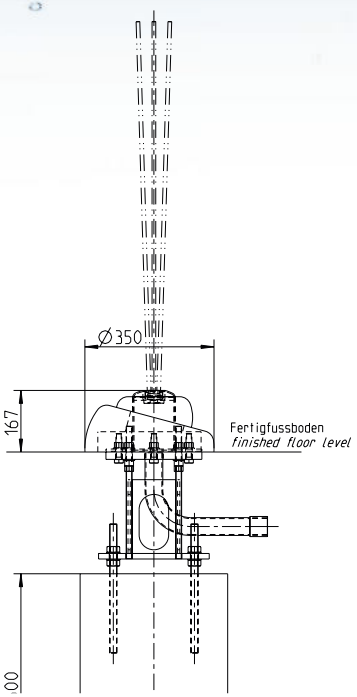

wiegand.waterrides GmbH

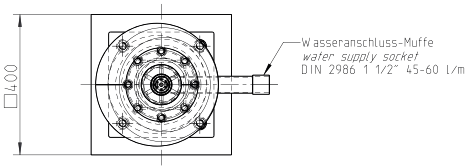

At timed intervals, the water fountain shoots up and sprinkles those guys standing around with water before it suddenly dries up again in the same way. The excitement rises: When does the water shoot up again? The fountain creates tension in the game. The time interval control is freely programmable via the distributor panel and the control cabinet.

SIZE
Length: 0,35 m
Width: 0,35 m
Height: 0,17 m
Spray Area: Ø ca. 1,50 m
STRUCTURE
Stainless-steel pipe with 7 nozzles and cover
Water Requirements: 45 - 60 l / min.

FOUNTAIN / VIEW A

FOUNTAIN / VIEW B

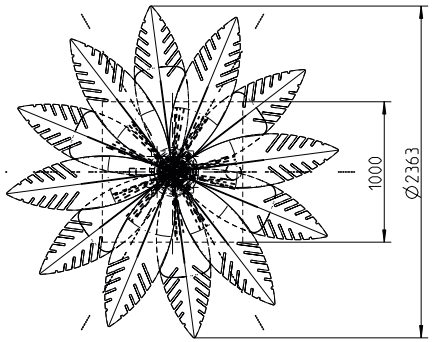

Palm

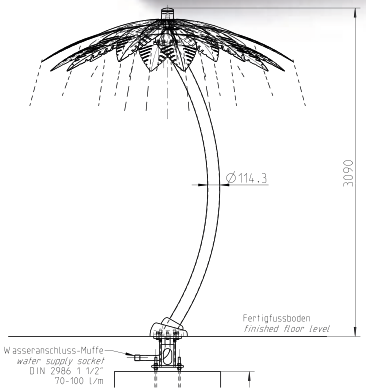

wiegand.waterrides GmbH

Like after a downpour, the water falls from the leaves of the palm tree and sprinkles the ones below with tropical rain. The palm tree is a visual highlight in every spray park or pools and creates a holiday ambience.

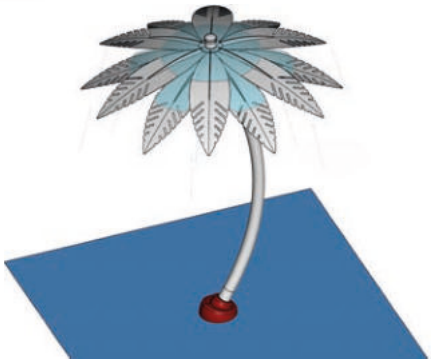

SIZE
Length: 2,37 m
Width: 2,37 m
Height: 3,09 m
Spray Area: Ø ca. 3,00 m
STRUCTURE
Palm trunk made of stainless-steel pipe Palm leaves formed from stainless-steel sheet
Water Requirements: 70 – 100 l / min.

PALM / VIEW A

PALM / VIEW B

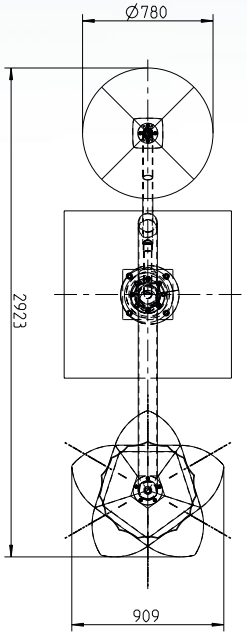

Flower 1

wiegand.waterrides GmbH

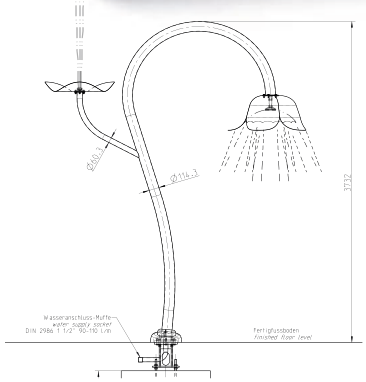

The big flower with its 2 blossoms is a lot of fun in free play.
While one flower lets a jet of water shoot upwards, the water pours over the other flower like a flower shower. With an individual color design, this product offers the possibility of integrating a visual highlight in your spray park or in the bathing area.

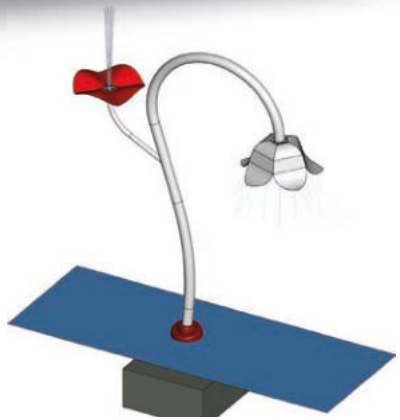

SIZE
Length: 2,93 m
Width: 0,91 m
Height: 3,73 m
Spray Area: ca. 4,00 m x 1,50 m
STRUCTURE
Flower stem made of stainless-steel tube with hand-shaped flower made of polycarbonate and calyx made of stainless-steel sheet
Water Requirements: 90 – 110 l / min.

FLOWER 1 / VIEW A

FLOWER 1 / VIEW B

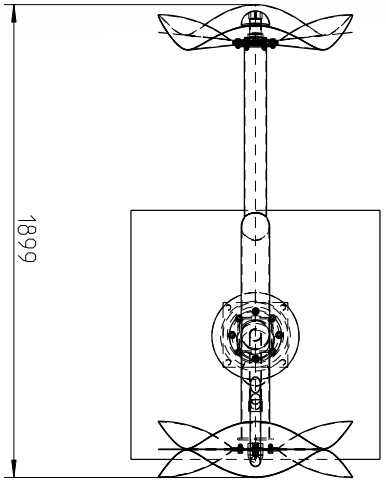

Flower 2

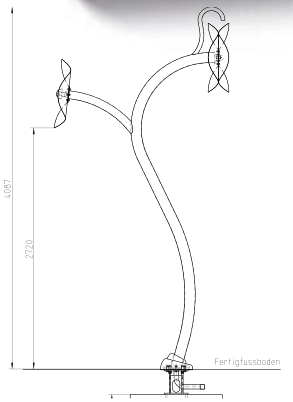

wiegand.waterrides GmbH

The large flower with its two blossoms is a lot of fun outdoors and is a visual highlight in every spray park. While one flower turns like a water wheel, the water pours out from the other flower and falls in heavy drops to the ground

SIZE
Length: 1,90 m
Width: 0,80 m
Height: 4,10 m
Spray Area: ca. 3,70 m x 2,00 m
STRUCTURE
Flower stem made of stainless-steel tube with hand-shaped flowers made of polycarbonate
Water Requirements: 90 – 110 l / min.

FLOWER 2 / VIEW A

FLOWER 2 / VIEW B

Banana Leaf

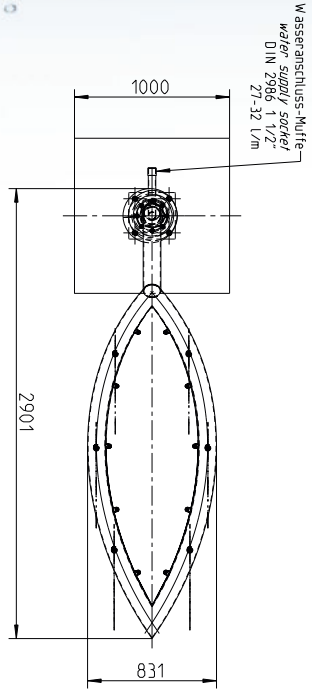

wiegand.waterrides GmbH

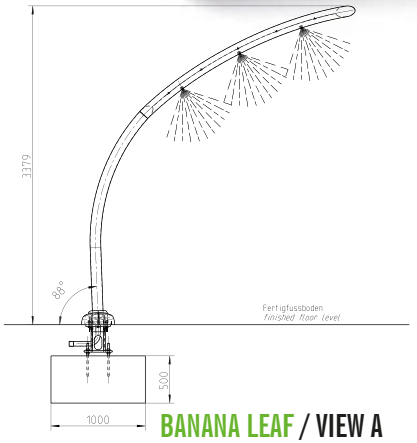

The banana leaf seems like an umbrella or roof that invites you to stand under it.
The ones under it are sprinkled with a fine drizzle that tingles gently on the skin.

SIZE
Length: 2,90 m
Width: 0,83 m
Height: 3,38 m
Spray Area: ca. 4,30 m x 2,00 m
STRUCTURE
Leaf stem made of stainless-steel tube with banana leaf made of polycarbonate, solid or perforated Aluminum sheet metal with 6 flat jet nozzles (90 ° each)
Water Requirements: 27 – 32 l / min.

BANANA LEAF / VIEW A

BANANA LEAF / VIEW B

Whale

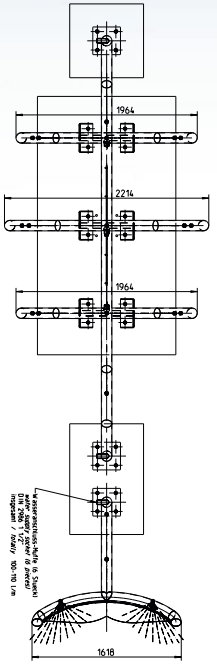

wiegand.waterrides GmbH

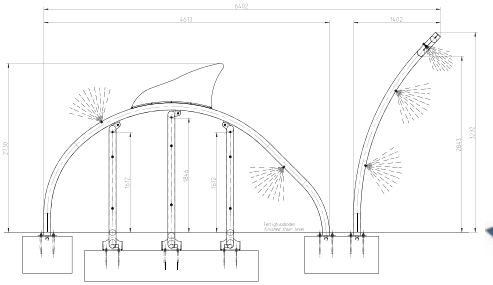

The large skeleton stands like a stranded whale in the spray park and invites the guests to run through the whale's belly. The numerous nozzles in the arches distribute a fine spray mist that gently tingles the skin.

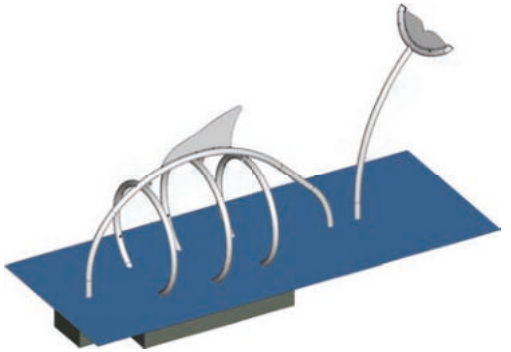

SIZE
Length: 3,10 m
Width: 8,10 m
Height: 3,50 m
Spray Area: ca. 11,30 m x 3,50 m
STRUCTURE
Whale skeleton made of stainless-steel tube 114.3 with fins made of stainless-steel sheet 21 full cone nozzles
Water Requirements: 100 – 110 l / min.

WHALE / VIEW A

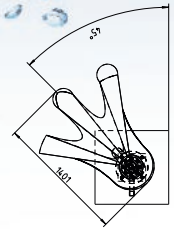

WHALE / VIEW B

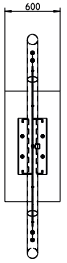

Frog with Foot

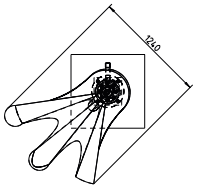

wiegand.waterrides GmbH

The water frog is not only amusing to watch but also brings a lot of fun. While the water splashes from the frog's feet, a fine spray in the ring of the body awaits a running through.

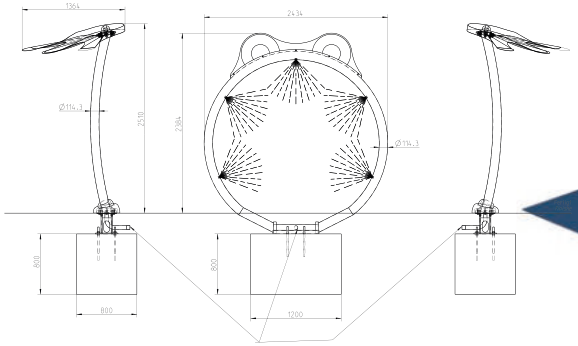

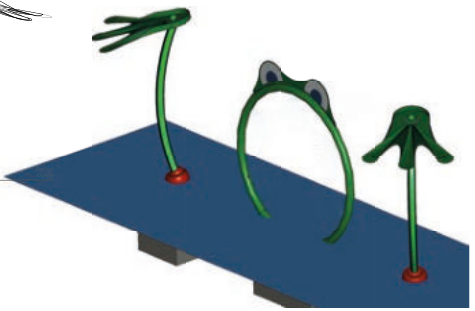

SIZE
Length: 1,40 m
Width: 5,80 m
Height: 2,40 m
Spray Area: ca. 7,50 m x 2,00 m
STRUCTURE
Ring made of stainless-steel tube 114.3 with 5 full cone nozzles Eye attachment, two frog feet on the side
Water Requirements: 70 – 100 l / min.

FROG WITH FOOT / VIEW A

FROG WITH FOOT / VIEW B

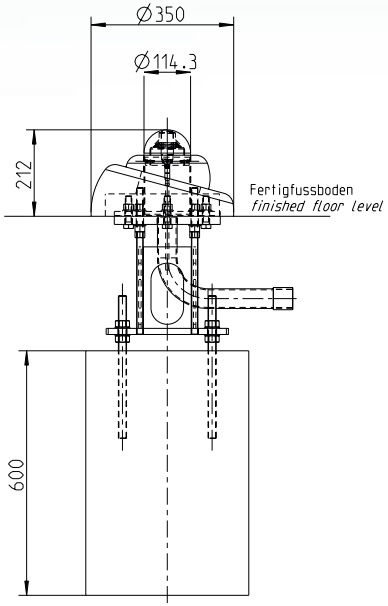

Activator Foot

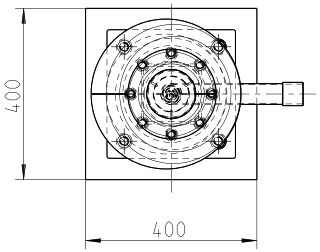

wiegand.waterrides GmbH

Just press it with your foot and the fun starts. All connected Wie-Spray products can be activated in this way.

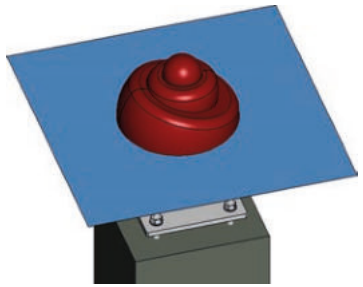

SIZE
Length: 0,35 m
Width: 0,35 m
Height: 0,21 m
STRUCTURE
short stainless-steel tube with plastic cap with integrated sensor

ACTIVATOR FOOT / VIEW A

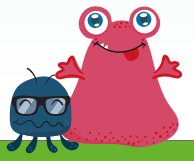

ACTIVATOR FOOT / VIEW B

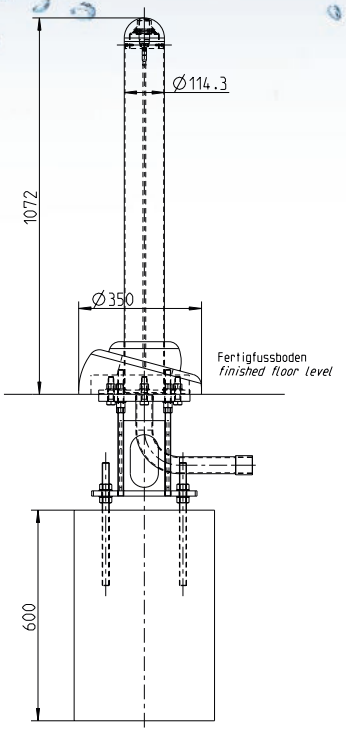

Activator Hand

wiegand.waterrides GmbH

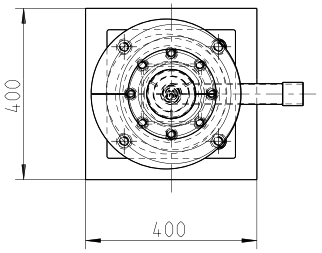

Just press it with your hand and the fun starts. All connected Wie-Spray products can be activated in this way.

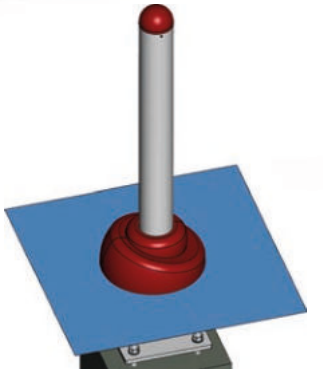

SIZE
Length: 0,35 m
Width: 0,35 m
Height: 1,07 m
STRUCTURE
Stainless-steel tube with plastic cap with integrated sensor

ACTIVATOR HAND / VIEW A

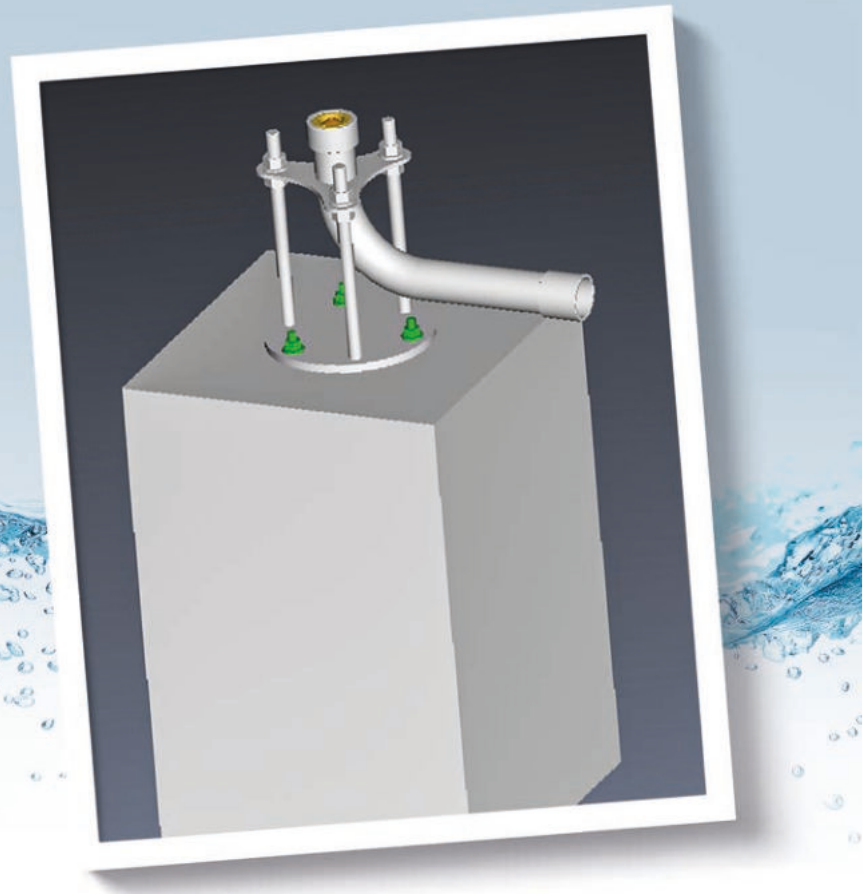

ACTIVATOR HAND / VIEW B

Floor nozzle

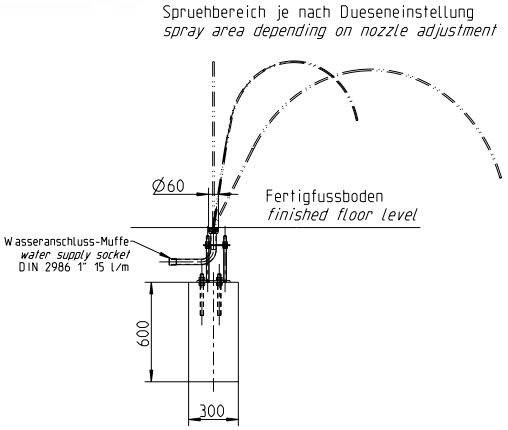

wiegand.waterrides GmbH

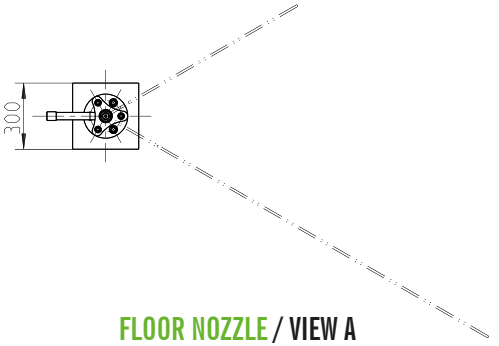

The floor nozzle is a single, flexible and programmable spray element that is installed without a visible floor structure. We are glad to offer you various combination options to design your spray park individually.

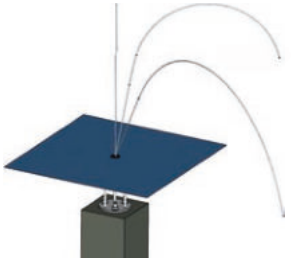

SIZE
Length: 0,06 m
Width: 0,06 m
Height: 0,00 m
Spray Area: depending on the nozzle and setting
STRUCTURE
Floor nozzle for different spray patterns, laid flush with the floor
Water Requirements: 15 l / min.

FLOOR NOZZLE / VIEW A

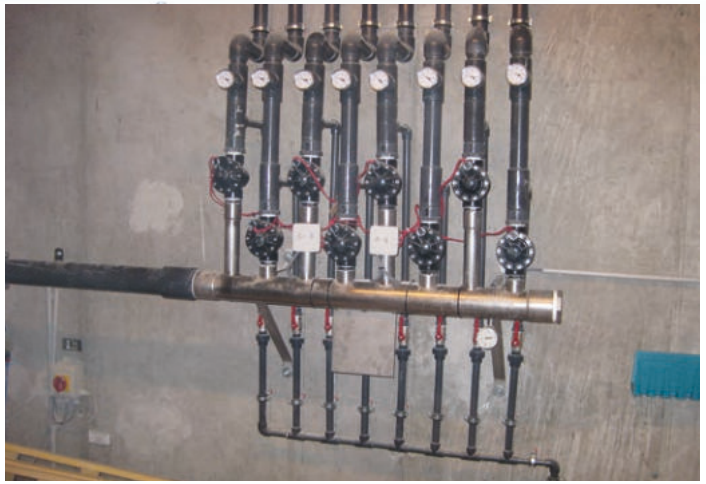

FLOOR NOZZLE / VIEW B

Distribution panel up to 10 outlets

wiegand.waterrides GmbH

With the distributor panel made of stainless-steel pipe with welded outlets, five to ten different water play equipment can be connected and combined. The panel has solenoid valves with a volume regulator and a drain function and is suitable for continuous operation. The working pressure is displayed on a manometer.

DISTRIBUTION PANEL UP TO 10 OUTLETS / VIEW A

Control Cabinet

wiegand.waterrides GmbH

The control cabinet is planned and adapted according to the needs and technical requirements of your spray park. We provide you with a solid unit that is splash-proof and approved for outdoor and wet areas. All cable connections are fully wired upon delivery.

CONTROL CABINET / VIEW A

Submarine

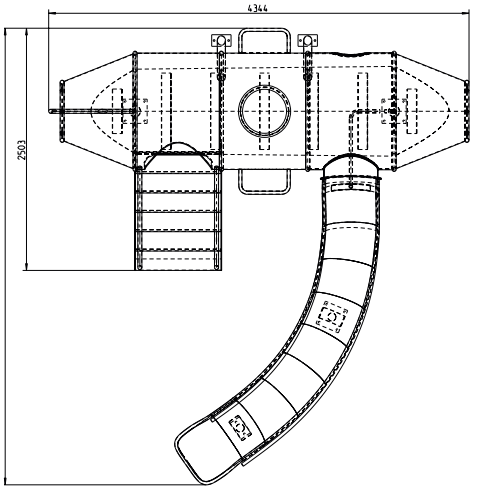

wiegand.waterrides GmbH

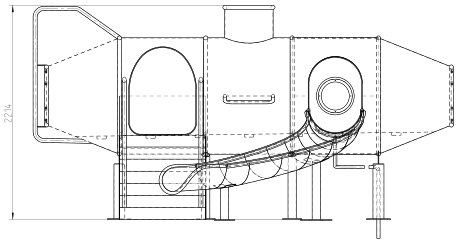

Get in and immerse yourself in a fantastic water play world. Crawl into the interior via the ladder and watch what is going on from the tower or the portholes. Get back outside via the curved slide and use the valve wheel at the stern to activate the periscope shower attached above. The Submarine will be a highlight in your spray park and offers a lot of variety and opportunities for free play.

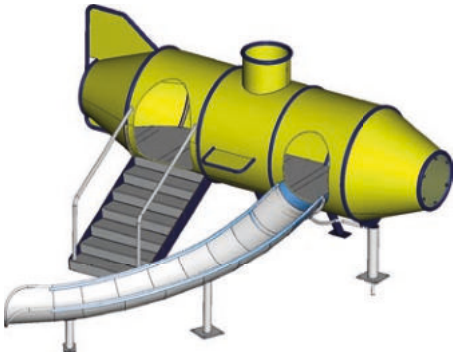

SIZE
Length: 4,35 m
Width: 4,71 m (with slide)
Height: 2,22 m
STRUCTURE
The Submarine can be equipped with spray elements, can also be seen as a slide and play area.

SUBMARINE / VIEW A

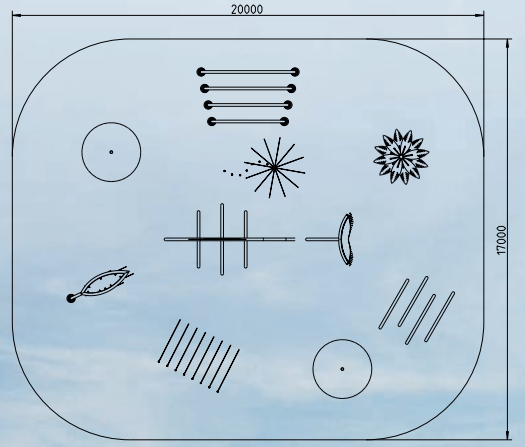

SUBMARINE / VIEW B

Water Playground Big

wiegand.waterrides GmbH

Example planning for a large water playground.

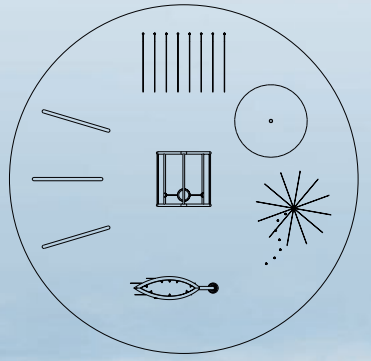

SIZE WATER PLAYGROUND BIG
Length ca. 20m
Width ca. 17m
BUILT-IN WATER PLAY EQUIPMENT
1x Whale 1x Banana Leaf 1x Flower 2x Spray Pillar 1x Ground Dragon 4x Spray Rings 1x Water Jet Tunnel 1x Rainbow

Water Playground Middle

wiegand.waterrides GmbH

Example planning for a middle water playground.

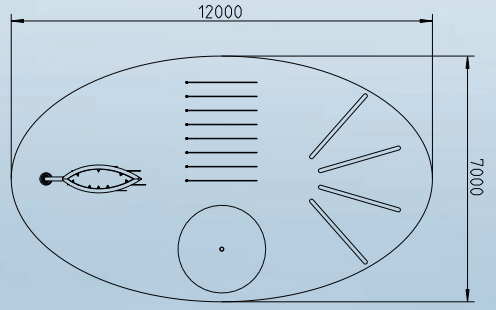

SIZE WATER PLAYGROUND MIDDLE
Diameter ca. 20m
BUILT-IN WATER PLAY EQUIPMENT
1x Beach House 1x Banana Leaf 1x Spray Pillar 1x Ground Dragon 1x Water Jet Tunnel 3x Spray Rings

Water Playground Small

wiegand.waterrides GmbH

Example planning for a small water playground.

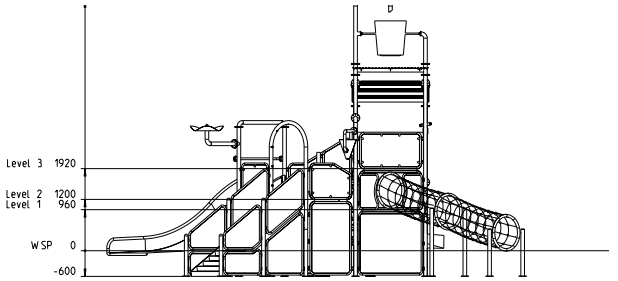

SIZE WATER PLAYGROUND SMALL
Length ca. 12m
Width ca. 7m
BUILT-IN WATER PLAY EQUIPMENT
1x Banana Leaf 1x Spray Pillar 1x Water Jet Tunnel 4x Spray Rings

Play Tower

wiegand.waterrides GmbH

The Water Play Tower is very variable and freely configurable. There are no limits to your imagination. Slides, Wie-Spray products, climbing elements, the combinations are numerous and varied. We would be happy to design an individual concept for you.

Water Playground Fire Station

wiegand.waterrides GmbH

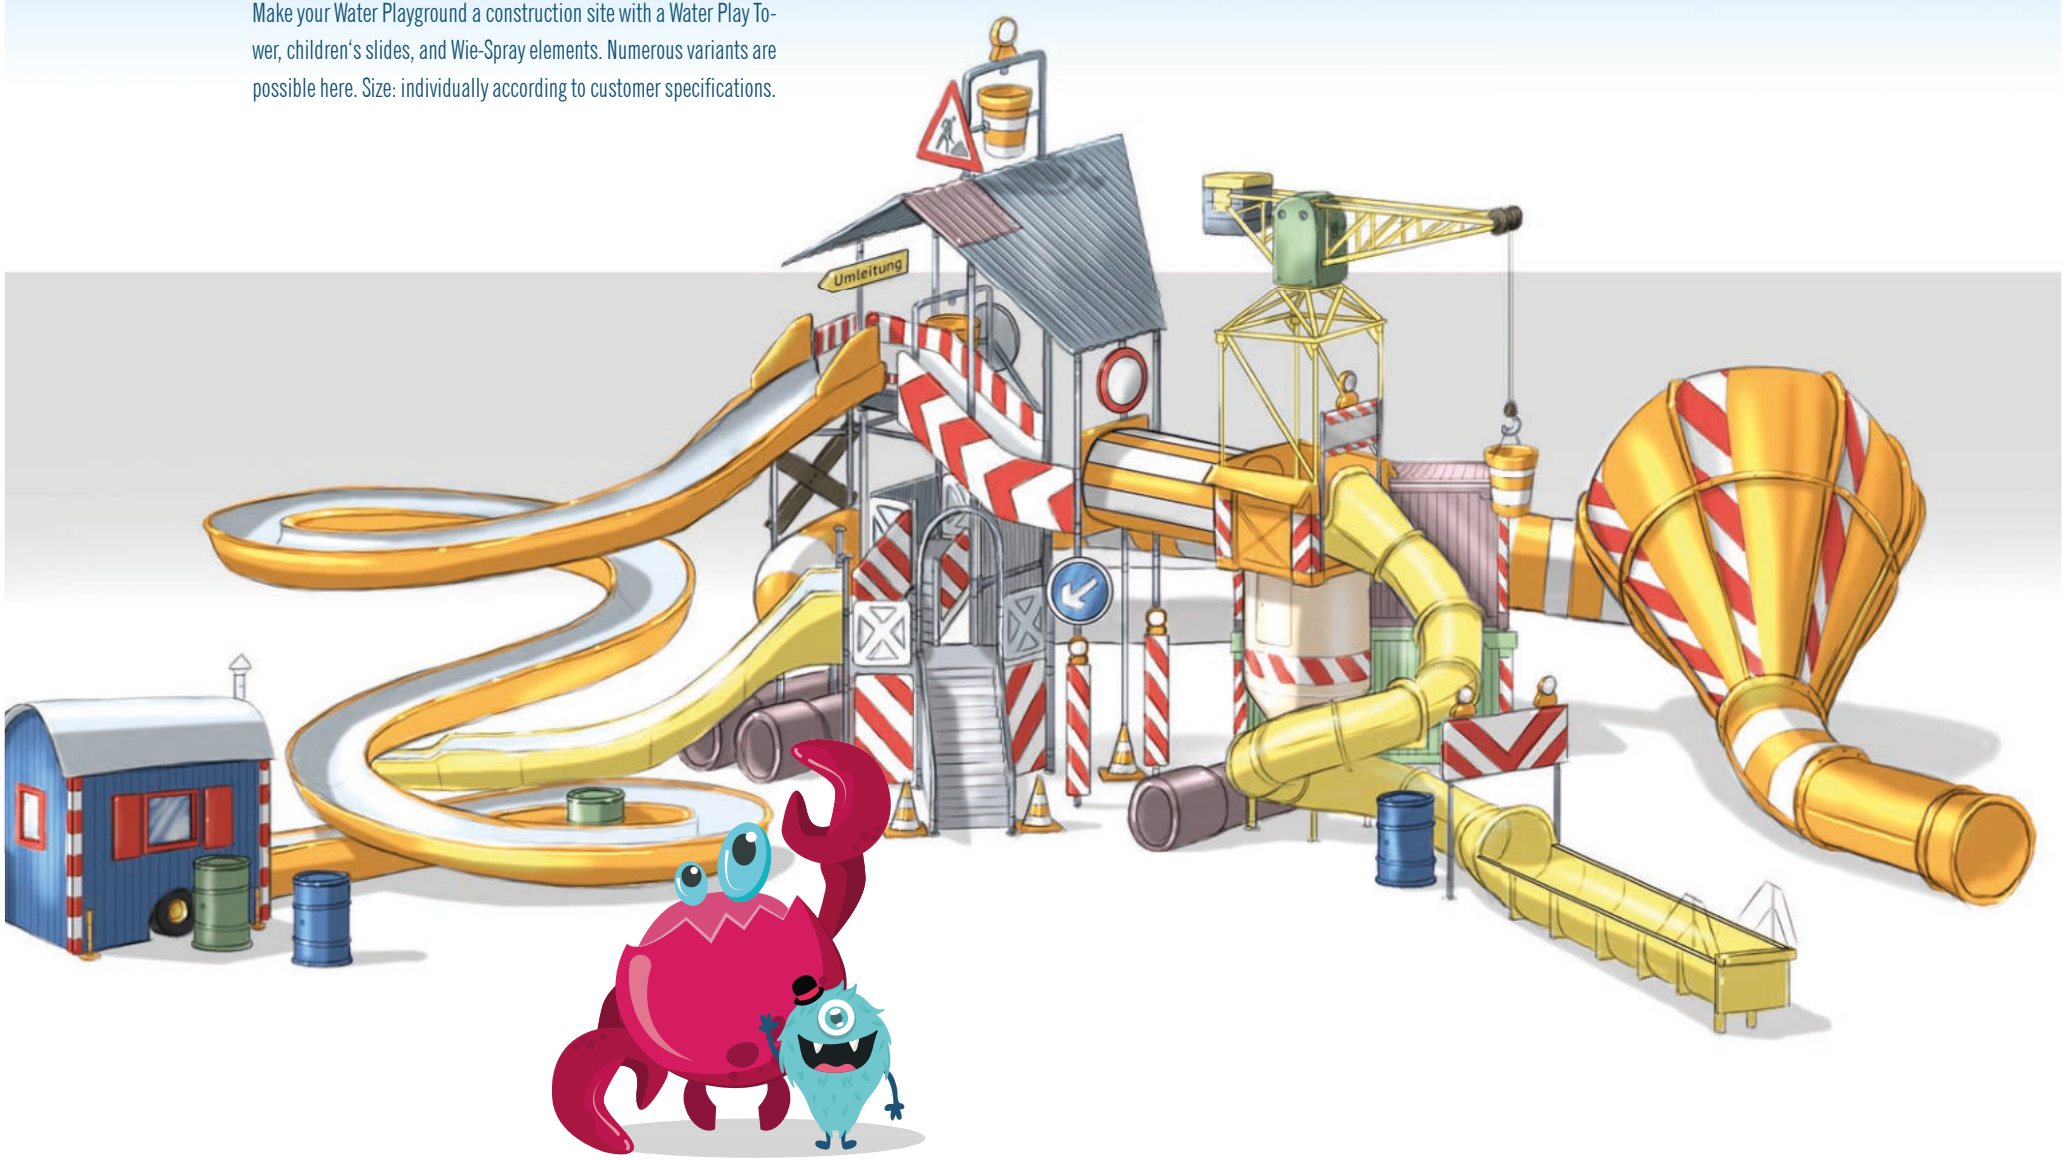

Make your Water Playground a fire station with a water play tower, children's slides and Wie-Spray elements. Numerous variants are possible here. Size: individually according to customer specifications.

Water Playground Construction Site

wiegand.waterrides GmbH

Make your Water Playground a construction site with a Water Play Tower, children's slides, and Wie-Spray elements. Numerous variants are possible here. Size: individually according to customer specifications.

Water Playground Magic Pond

wiegand.waterrides GmbH

With the themed Water Playground Magic Pond, they make children's eyes light up. We plan an individual, themed overall concept for you according to your wishes and requirements. With a water play tower, children's slides and various Wie-Spray elements, numerous variants are possible here. Size: individually according to customer specifications.

Water Slides Kids

wiegand.waterrides GmbH

We can offer many types of children's slides. From the toddler slide, trough and tube slides to Tumble Wave slides.

Dry Slides Kids

wiegand.waterrides GmbH

Classically in pure stainless-steel or individually painted on the outside in a colorful way, our children's slides are the perfect addition to any area for children and families. Safety has top priority, and the stainless-steel slides offer the highest possible slide quality without noticeable joints. We plan individually according to your wishes and adapt each slide for you.
